B. Social Action Materials and Political Awareness Literature

Current Need: The chapter does not currently have consistent Social Action literature that promotes political awareness, civic education, and year round community engagement.

Discussion Items:

• Develop chapter branded Social Action materials that can be used consistently at chapter programs, community events, voter education activities, Civic 101, etc…

Develop a Know Your Government resource explaining local, county, state, and federal government responsibilities and where residents can go for reliable information.

• Develop a civic participation guide that explains how to register and verify voter status, find elected officials, attend public meetings, speak during public comment, contact government offices, follow legislation, and participate in advocacy.

• Create a legislative awareness handout or QR based resource that can be updated during the Georgia General Assembly session without reprinting an entirely new packet.

• Develop event specific inserts or information cards so Social Action has educational materials that match the purpose of each approved program

• Create a resource sheet with official nonpartisan links, including voter information, Georgia General Assembly resources, local government meeting information, and contact information for elected offices.\

• Determine which materials should be printed, digital, QR based, or available on the chapter website.

• Coordinate with PR and Communications on branding and publication, while Social Action remains responsible for the civic education content.

• Identify a Social Action Materials Lead and Co Lead to coordinate development, review, updates, printing needs, and distribution.

Proposed Motion: I move that the Social Action Committee develop a coordinated set of chapter branded political awareness and civic education materials for use at approved chapter programs and community activities, subject to the chapter's required review and approval process.
